SKILLS

React/Redux, Ruby, Rails, Javascript, MongoDB, Express, Node.js, PostgreSQL, JQuery, SQLite3, Git, HTML, CSS, AWS

PROJECTS

BANDCABIN (Fullstack, Rails, ReactJS, Ruby)

[live](#) | [github](#)

A clone of bandcamp, providing musicians and bands with services to display and sell their music.

- Established custom user authentication to login and signup users.
- Enabled music playing and album uploading.
- Incorporated AWS for user and band image uploading allowing for a customized experience.

WHERE TO FEAST (Group MERNstack)

[live](#) | [github](#)

An app to help you and friends find out Where to Feast.

- Performed the role of Team Lead and flex developer, working on all aspects of the project, reporting to project managers.
- Achieved learning and implementing a brand new stack in the span of a week to produce a viable product.
- Incorporated various additional technologies such as websockets for live connections and chat, and google maps API to display local results.

SPACE TURTLE: ORIGINS (VanillaJS)

[live](#) | [github](#)

A deck building roguelite card game.

- Utilized pure vanilla js to create a deck building card game excluding the use of JQuery.
- Players are able to play cards to defeat enemies and select new cards to add to their deck.

EXPERIENCE

Operations - IT - Helpdesk

The Shubert Organization / Telecharge

May 2015 - November 2019

- Planned and implemented external website programs such as Usabilla for website feedback and IBM tealeaf client tracking.
- Monitored and maintained system duplexes, performing backups closedowns and restores.
- Created, and resolved over 50 support tickets weekly for technical assistance on a wide range of issues.

Sales Manager - Account Executive

Verizon / 2020 / Gotham Outsourcing

July 2012 - May 2015

- Consistently exceeded sales numbers, averaging 13 weekly no cancel installs amongst various markets.
- Managed the Staten Island team, doubling staff and individual sales resulting in an all time high for the market.
- Launched successful markets in Albany NY, Boston MA and Trenton NJ reporting successes to Verizon district management.

EDUCATION

App Academy | 2020

Rigorous, 16-week web development program with a 3% acceptance rate; completed 1000+ hours in programming, including pair, group, and solo with 12+ hours of daily work.

William Paterson University | 2008 - 2010

General education coursework
